WHOLESALE PRICE-LIST

Of Hardy Decorative Flowering Shrubs and Plants, Ornamental Trees, Evergreens, Roses, Bulbs, Herbaceous Plants, Fruits, Etc., Etc.

For Parks, Cemeteries, Gardens, and all Public and Private Grounds.

1840. B. M. WATSON, 1894.

OLD COLONY NURSERIES, PLYMOUTH, MASS., U. S. A.

HOME OR FOREIGN ORDERS FILLED WITH THE UTMOST CARE AND PROMPTNESS.

DEAR SIR:—I have the pleasure of handing you my **WHOLESALE** list of Shrubs and Plants and Young Trees, etc. Plants packed for Europe with great care. I give you the benefit of the lowest prices and hope to have your orders in full.

To persons about to ornament their grounds, I shall be happy to show the extensive plantations here, agreeably laid out in the modern style, covering fifty acres, containing many thousands of the leading hardy Ornamental Trees, Shrubs, Evergreens, Fruits, etc. My plantations, now forty years old, are perhaps the most extensive in New England. The Nurseries are 7 hours from New York, 90 minutes from Boston.

Agents and Clubs.—Agents are wanted in every town in the United States for the sale of Trees, Plants, and Shrubs. These prices are net; agents must make their own prices.

Please remit by check or P. O. order. Autumn delivery begins September 15, and Spring delivery begins March 20. If you receive more than one list, please distribute to your friends. I will send lists to any address you may send me. Yours respectfully,

B. M. WATSON.

Extra Sized Specimens of the following Shrubs, Trees, Evergreens, Roses, Vines and Creepers for immediate effect will be sent for 50 cents each, $5.00 per dozen, $35.00 per 100. A Special list of hardy Shrubs and Plants for the seashore will be sent to any address.

I will furnish 1000 ornamental trees of my own choice, fine sorts, for $250.

Decorative Perennial Herbaceous Plants.

These plants are all hardy and produce an immediate effect, as they bloom the first year they are planted. They should be planted in the autumn, which is the best time for planting herbaceous plants, and should be covered with a forkful of dung to protect them from being thrown out by the frost. They may be planted in the spring, also with great success. I offer the following choice collections of my own selection, in the very finest and most useful sorts. This class of plants is fast taking the place of bedding plants, as they do not have to be renewed every year.

Collection of 12 choice sorts, all different named,				$2.50

Pæonies—New Chinese and Japanese Herbaceous.

Well established plants from the open ground.

I have a very large and complete collection of this gorgeous flower, many thousand plants. Of these I offer the following assortments at very low rates. They consist of the most celebrated sorts known, and include many that are yet very rare. This is now the most fashionable of all showy, hardy garden plants, both here and in Europe.

These fine Japanese and Chinese pæonies are well known to be the most showy flowers in cultivation, and are particularly adapted to our climate. They are entirely hardy and bloom a long time. They are accordingly very much used now for large masses in cemeteries, parks, and pleasure grounds; and may be followed by Lemoine's beautiful new French Gladiolus (see p. 13), the stiff foliage helping to support the spikes of gladiolus. They should be planted among the pæonies in May.

Plants are fifty cents each; your choice. 12, all different, named sorts, my choice, $4.00. 25, all different, named sorts, my choice, $9.00. 50, all different, named sorts, my choice, $20.00. 50 very choice named sorts, my choice, $15.00. 100 very choice named sorts, my choice, $30.00. For cheaper plants unnamed, see below. 12 fine plants, unnamed, $2.50; $15.00 per 100.

The finest cranberries in the world are grown in this neighborhood. Last year the crop amounted to more than a million dollars in value.

Only the very choicest and most approved sorts of fruit are offered, and all orders are filled with the greatest care in regard to variety, quality, and season.

The **best** apples for general cultivation are as follows, ripening in succession in the order of their names, and covering the whole season from the middle of July to the first of June: Early Harvest, Red Astrachan, Gravenstein, Porter, Fameuse, Hubbardston Nonesuch, Yellow Bellflower, Tallman Sweet, Golden Russet, Baldwin, Rhode Island Greening, and Roxbury Russet.

The **best** pears for general cultivation are Bartlett, Bonne de Jersey, Seckel, Sheldon, Anjou, and Lawrence, ripening in succession as named.

ACORNS OF THE ENGLISH ROYAL OAK. It is found that this magnificent oak is the best grown on the Pacific coast, and I have sent many hundred pounds to the United States Government Stations there to grow plants for distribution to planters. Section 1—New and improved varieties of the first quality, of recent introduction.

Price: 50 cents per dozen; $2.00 per 100. Prepaid by mail.

ACCOMAC—A splendid early variety of recent origin. It is one of the very earliest. Berries large, conical, dark crimson, fine quality. A vigorous grower.

ANNA FOREST—The fruit of the largest size, uniform, and of good form and color. All good judges pronounce this one of the best sorts of recent introduction. Very early.

AUBURN—A very promising new variety, ripening second early. A beautiful fruit, dark crimson, and very prolific. Plant healthy and vigorous, fruit firm and attractive. A first-rate sort.

BARTON'S ECLIPSE—One of the most satisfactory of all strawberries. A model berry, early, firm, very productive, and of the richest flavor. One of the most popular. A pistillate flower, and should be fertilized with Anna Forest or the following.

BESSIE—A new variety. Plants large, with dark, rich foliage. Berries very abundant, of a dark glossy crimson, uniform in size and shape, very firm and attractive appearance. A first-class family and market sort.

BEVERLY—Universally commended. The fruit is large, conical, uniform and regular, bright glossy crimson, firm and very rich. Midseason to late.

BOYNTON—Early and long continued. Large size, well maintained. Bright color, remarkably firm. Wonderful productiveness, surpassing most others. One of the most profitable.

CRAWFORD—An improved Cumberland which for some years has been a favorite with growers. One of the surest and safest fruits in the whole collection, and continues to bear a long time. A first-class family berry.

DAVIS (No. 2)—An enormous fruit in the way of Sharpless, which it resembles. One of the largest and firmest of berries. It is, in fact, an improved Sharpless, but is better in shape, color, and flavor.

DAYTON—A fine large berry, rich dark crimson in color, firm, of handsome form and rich flavor. One of the best shippers, and gives the best satisfaction for high quality and productiveness.

DEW—One of the largest of strawberries. Very firm and a long keeper, and one of the best of shippers. Very early, of a rich dark crimson, high flavored and productive.

E. P. ROE—One of the latest varieties. In the market by the crate as late as July 11. A strong and vigorous grower. In flavor it exceeds most strawberries. One of the most valuable market and family berries.

EARLY IDAHO—A most hardy plant, and will stand the most trying winters and late frosts. It is claimed to be earlier than Michel's Early. An enormous bearer of large, round, well shaped berries of a beautiful bright scarlet; firm, and of excellent quality.

EUREKA—This is one of the finest new sorts, large, productive, and beautiful. It is very late, and is in the market after most others are gone. It should be fertilized with the following sort which is of about the same season.

GANDY—The latest sort, prolonging the season into mid-July. The fruit is large, bright scarlet, rich, and beautiful. It has a most delightful aroma. The flesh is red, juicy, sprightly, and agreeable. Conceded to be one of the best late sorts.

GILLESPIE—A luxuriant plant, and a most prolific bearer; berries of the largest size, oblong; color bright scarlet red; flesh firm but melting, sweet and excellent. One of the most popular new sorts.

GOLD—Of the finest quality, large, firm, and a good keeper. Bright scarlet, with golden seeds, very handsome. Medium to late. Took the silver medal at the Massachusetts Horticultural Society's show as one of the best new fruits. Fertilize this sort with Greenville.

GREAT PACIFIC—Well adapted to light soils. A robust grower and great bearer. The berries are large, regular, and uniform, of a glossy bright crimson. The flesh is firm, red, and of excellent quality. Popular wherever known.

GREENVILLE—An exceedingly promising sort. The berries are large, bright crimson, firm, and of rich flavor. It is a late fruit, and late fruits are always valuable. Midseason to late.

HAVERLAND—A very productive and profitable sort. Berries are large, long, with rounded apex, of a bright glossy crimson. Very showy and very popular in all markets.

IOWA BEAUTY—Beautiful in form and color. Berry large, firm, and of the highest quality. Color brilliant polished crimson with golden seed laid upon the surface. Plant vigorous and an abundant bearer.

JUCUNDA IMPROVED—One of the handsomest and most attractive of strawberries. Noted for its vigor and bearing qualities. It has the rich flavor of the English Pine strawberries, and is one of the most prized garden sorts. A beautiful fruit.

LEADER—This is one of the most popular of the new sorts, and will soon be a universal favorite. For beauty of form and color it is unsurpassed. The fruit is piquant and rich. Bright crimson, with seeds of gold. A first-class fruit.

LOVETT'S—A good, all-round berry, beginning to bear early, and continuing to bear till the last of the season. Berries bright clear crimson, of the highest excellence. A very fine home or market variety.

MEEK'S EARLY—This is acknowledged to be one of the best early berries known. It is of good size, and very productive. I need not say that a good early variety is a great desideratum.

MICHEL'S EARLY—This is an extra early fruit, and is universally admired. Berry very handsome in the dish; of a lively light scarlet. It is a good bearer, and a most acceptable fruit. A sweet and delicious variety.

MRS. CLEVELAND—A lovely berry named after the President's wife. The berry resembles the Cumberland; of a light scarlet, and is very delicate and richly flavored. It makes a beautiful dish of fruit. It must be fertilized with any midsummer sort.

OREGON EVERBEARING—A very remarkable sort from the Pacific coast, where it bears continuously from spring to winter. The berries are very large, deep crimson and of superior quality. It does not prove to be everbearing in my grounds, but it may prove so in other parts of the country. It is a fine fruit.

PARKER EARLE—This fine berry has few equals. The berries are long, regular, and uniform in size, of a bright rich crimson. For yield and quality it has hardly an equal. First-class in every way.

PHILLIPS—A very large fruit, similar to the Sharpless, but more productive. A showy berry, and of excellent quality. A midseason fruit, but continues to bear till the end of the strawberry season. A new variety of great promise. It may be fertilized by Parker Earle.

PRINCESS—An extraordinary new berry, of the largest size. Some of the berries have measured 6 inches in circumference. 18 berries fill a quart basket; they average very large. Uniformly perfect in form, ripening all over at once. A remarkably attractive fruit. Must be fertilized by Eureka or Haverland.

PUTNAM, GEN.—Like the Cumberland. Strong plant; bright clean foliage; healthy and vigorous. The berries are large, roundish conical. In color a delicate scarlet, and of superior quality. One of the best new fruits.

REGINA—A very late variety of great merit. Large berries, very firm. In color a clear bright scarlet, and of superior quality. It must be fertilized with Gandy or any other late strawberry.

SHUCKLESS—A hardy vigorous plant, bearing berries of very large size, of a dark crimson color, and rich flavor. The shucks detach themselves from the fruit in picking, so that it does not need to be hulled for the table. An excellent variety.

VAN DEMAN—A new extra early variety of great promise. The berries are of good size, rich flavor, firm, and good shippers. This is undoubtedly one of the earliest sorts known, and one of the most productive.

Section 2.—Unique special varieties for the table.

LENNIG'S WHITE—A choice fine strawberry of great beauty. The fruit is white or pink, and is very showy on the table in contrast with the dark or scarlet sorts. It is very sweet and productive, and is a great addition to the novelties of the garden.
75 cents per doz.; $3.00 per 100. Prepaid by mail.

WHITE NOVELTY—A new Alpine variety bearing fruit of fair size all summer long. It yields a good crop in June. The

berries are a clear white and of a unique and delicious flavo

MEXICAN EVERBEARING—A truly perpetual bearer, being never without fruit during the whole season till cold Nove ber weather. The fruit is scarlet, with a peculiar rich arom It is a good thing to scatter about in the fields and wood of your estate where it will surprise you with its high flavored fruits. 25 cents per doz.; $1.00 per 100. Prepaid by mail.

Section 3.—Older varieties of the highest excellence. Price 25 cents per doz.; $1.00 per 100. Prepaid by mail.

BEDER WOOD—A very valuable sort for home use or market. Good form and color, firm, productive, and of fine quality. Very prolific and all will be satisfied with it. One of the earliest and best sorts.

BUBACK (No. 5)—This is a wonderful berry, both for size and yield. It is one of the largest and finest of recent sorts, especially for family use. It is a midseason fruit and being a pistillate variety should be fertilized by the preceding or other midseason sort.

CHAIRS—This produces the most enormous yield of almost any variety. Fruit large, good flavor and high color; a vigorous and very productive plant. An attractive and valuable fruit.

CHARLES DOWNING—One of the best of the old sorts. There are few better. High flavor and very productive. It is suitable to all soils and situations, and remains fruitful and excellent without renewing for several years.

CRESCENT—An uncommonly productive strawberry. Berries bright scarlet and attractive, of easy culture and enormously productive. A universal favorite. It should be fertilized by any of the earlier varieties, being a pistillate sort.

GREAT AMERICAN—An old favorite. A vigorous and productive plant. Fruit of good size, solid, high colored and of delicious flavor. Should be in every garden.

JESSIE—This large and beautiful berry gives universal satisfaction. Its large size and handsome regular form render it one

the most desirable sorts. Its flavor is delicious. One of the most showy and prize-taking fruits.

MARRY—A vigorous and productive plant. A uniformly large and handsome fruit of excellent quality. A midseason fruit, and one of the most trustworthy for family or market.

PEARL—A very vigorous and productive plant. The berry is handsome, conical, clear, glossy crimson, as if polished, and of excellent flavor. A profitable market and family berry. An early variety.

SHARPLESS—A large and very healthy, vigorous plant. Fruit dark crimson, very large, firm, and high flavored. A universal favorite. Takes many prizes. Midseason.

SCHUSTER'S GEM—Vigorous and healthy. Fruit large, round, of uniform size, a brilliant scarlet and very showy, firm and of excellent quality. Carries well. One of the best. Early and lasting long. Should be fertilized by any midseason sort.

SOUTHARD—An early variety; among the very best. The berries are large, conical, deep rich scarlet, of very pleasing flavor. It is one of the heaviest cropers, and valuable for the market or private garden.

SWINDEL—Very late and therefore very desirable. Of good size, dark scarlet, a glossy and showy fruit, firm and rich, a good grower. It should be fertilized by Gandy or some other midseason to late berry.

WALDRON—A robust and healthy plant. A fancy berry of great beauty, very large, bright crimson, and of excellent quality. This fine variety should be in every collection where showy fruits for exhibition are required. Midseason. May be fertilized by Eureka or Haverland.

WILSON—The well-known old variety and one of the firmest of all fruits, and can be carried great distances. A very dark colored sort and very productive. One of the best market varieties.

WOOD STRAWBERRY—The best native or wild variety with the marked rich aroma which belongs to the class. Dark crimson, with a unique and peculiar flavor.

YALE—Under high cultivation the fruit is large, firm, dark colored, of an exceeding rich high flavor. Well dressed with wood ashes it gives splendid and showy fruit.

THE MARSHALL STRAWBE[illegible]Y.—THE LATEST NOVELTY.

This magnificent berry, a few plants of which were sent out last [illegible]ear, at $10.00 per dozen, is practically offered for the first time this season. Of the very largest size, far surpassing in that respect any oth[illegible] sort, in color very dark rich crimson to the core, flesh fine grained and of a delicious flavor and with the peculiar aroma of the native wild strawberry, from which it is thought to have sprung, it is undoubtedly the finest sort ever grown in this country. The blossom is perfect and needs no fertilization. The plants are the strongest and most vigorous I have ever seen. The foliage is heavy, and thick enough to protect the blossom from late frosts, and the roots from the winter's cold. It is a remarkably fine keeper and carrier, which will commend it to all growers for the market. 3,000 qts. grown on ¼ acre.

Testimony of the Massachusetts Horticultural Society.—Any number of testimonials could be furnished from experienced growers who have watched the Marshall for two or three years, but the unprejudiced testimony of the Massachusetts Horticultural Society, the most critical society in this country, is all we have room for at present. To a well known cultivator who wrote to Mr. E. W. Wood, chairman of the Fruit Committee of that society, to inquire what he thought of it, Mr. Wood replied: "It is a new variety and the most promising variety grown. The biggest measure over 7 inches in circumference, very dark red, and the reddest berry all through there is grown. *Fourteen berries filled a quart basket.* It has a fine flavor. The plant is very hardy. The owner has never covered it and it comes out fresh every spring." It was first exhibited in 1892, and in that year the Massachusetts Horticultural Society gave it its two first prizes, and its three second prizes. On being exhibited in June, 1893, in competition as before with the most celebrated sorts, it again received all the first prizes, including the Lyman plate. This is an unexampled success at the best show of strawberries ever made by this society. Those who were present at this exhibition will not soon forget the enthusiasm with which this splendid display of fruit was received.

A limited supply of fine plants, *warranted pure and true to name*, is now offered at $2.50 per dozen, $16.50 per 100. Prepaid by mail.

No nurseryman, florist, or gardener can afford to be without this variety,—the great **strawberry of the future.**

REINTRODUCTION OF HOVEY'S SEEDLING STRAWBERRY.

This famous old fruit was sent out in 1835, or thereabouts, by C. M. Hovey, a well known horticulturist of that time, the editor of "Hovey's Magazine," and the author of "Fruit Trees of America." Up to the recent introduction of the Marshall, it was the finest flavored and the most showy and popular strawberry ever grown here. But in the rush of new varieties it has entirely disappeared from our gardens, and is not now offered by any of our nurserymen or fruit growers. Among the many hundred sorts that have been tested in these nurseries during the last fifty years and more, this, in my opinion, takes the lead both in quality, flavor, color, and productiveness. I have, therefore, decided to reintroduce it. It is a pistillate variety, and should be fertilized by any mid-season sort. A limited stock is now offered at $1.00 per dozen, $4.00 per 100. Prepaid by mail.

BELLE—A new strawberry of Mr. Crawford's which he writes me proves to be of the very best quality, combining all the merits of a first-class fruit. I have not fruited it, but, from its habit and Mr. Crawford's judgment, I would recommend it for trial. $1.00 per dozen, $5.00 per 100. Prepaid by mail.

SMITH'S SEEDLING—A new fruit. I am assured that it is a first-class market berry, flower perfect, and a heavy yielder of first-class berries, and the firmest of all the large-berried fruits. Color very dark rich crimson. 75 cents per dozen, $2.50 per 100. Prepaid.

TIMBRELL—This fruit, no doubt, has a great future. It is highly recommended by experienced growers. For flavor it is thought to surpass all others. A most productive fruit, of large size and very solid. $1.50 per dozen. Prepaid by mail.
